

**HAVE YOU EVER OR ARE YOU
CURRENTLY USING CAMHS
EATING DISORDER SERVICES?**

WE WOULD LIKE YOUR FEEDBACK

**BECAUSE IT MATTERS
TO US WHAT YOU SAY**

We would like your help with implementing a CAMHS Eating Disorder strategy for the South West of England.

We have recently been funded by the Southwest Provider Collaborative to understand and improve the experience of young people and parent carers accessing eating disorder services.

We think the best way to make sure young people's mental health is supported is to have their thoughts, feelings, ideas and opinions at the heart of mental health services - especially intensive and specialist services.

You can get involved as much or as little as you like. You can support us in a variety of ways. For example, filling in a questionnaire, having a conversation with someone over phone, email or Zoom, attending a focus group, leading training sessions or getting involved with a participation group!

If you are a young person who has or is using eating disorder services, we would like to speak with you about your experience and find out:

What worked?

What could be improved?

We recognise that you are experts by experience and we really value your contribution! So you will be paid for your time.

If you would like to get involved you can speak to your worker who has the details, or you can contact Beth at
CYP-Participation@exeter.ac.uk
